

Grant County Jail

Attorney and Other Official Visits, Mail, and Phone Calls

Attorney Visits: Attorney wishing to visit their clients at the Grant County Jail may be required to present photo ID and bar/business card if they are not known to the deputies on duty. Attorney visits are generally conducted from 7:00 AM and 11:00 PM, but may be allowed at other times if special circumstances dictate. These visits do not require advance notice, and are conducted through glass with a paper pass slot available.

Special Visits: Attorneys may request a special visit when it is necessary to see their clients face to face, show them videos or evidence, etc. These visits are easiest to accommodate on Tuesdays, Wednesdays, or Thursdays. These arrangements must be made in advance with the Sargent or Officer In Charge at the jail on weekdays 541-575-1134.

Other Official Visits: Include Attorney's Investigators and Evaluators, as well as Government agents such as Mental Health, Children's Services, and Parole and Probation. This visits will be handled at the same times and in the same fashion described above.

Official Correspondence: is mail to or from the Governor, jail administrator, Attorney General, judges, the Department of Corrections and the inmate's attorney.

Official correspondence must be marked 'attorney mail', 'legal mail' or 'official correspondence' to ensure it's special treatment (although marking as such does not require special handling if it does not meet the criteria above).

Outgoing official correspondence shall not be opened, read, or inspected unless there is reason to believe that it presents a physical danger to the recipient.

Incoming Official Correspondence shall be opened only in the presence of the inmate to whom it is addressed, and shall be inspected for contraband, and to ensure that it reasonably appears to be Official Correspondence'

Attorney Phone Calls: There are phones in each cell that allow inmates to make collect or calling card calls. You may also get the phone number to the phone service provider and set up a pre-paid account so that your clients can call you.

While the phone system records personal calls for monitoring later it does not record attorney calls. Staff will, on request double check to ensure that attorney phones are setup as non-recorded (so far they have had all attorney office phones, but may not, for example, have an attorney's cell phone number).
